

1. Excel is an example of what type of software?

1 / 1 point

- ☐ Word Processor
- ☒ Spreadsheet Software
- ☐ Presentation Package

✔ Correct

Yes. Other examples of spreadsheet software are Apple Numbers, Google Sheets and LibreOffice Calc.

2. Which of the following is NOT part of the Ribbon?

1 / 1 point

- ☒ Tools
- ☐ Home
- ☐ Data
- ☐ Insert

✔ Correct

You spotted it - **Tools** is not a tab of the Ribbon. Well done.

3. My Ribbon has disappeared - how can I get it back??

1 / 1 point

(One or more answers are possible. Partial credit will be awarded)

☒ Right-click on one of the tabs and untick **Collapse the Ribbon**.

✔ Correct

Nice work - you have been paying attention to Nicky's explanations in the Practice Video.

☐ Close Excel and open it again.

☒ Double-click on any of the ribbon tabs.

✔ Correct

Your answer is spot on. If you are working on a Mac, a single click will have the same effect.

☐ Switch to another worksheet.

4. Clicking on the **File** tab takes you to the **Backstage View**. From here you can

0.8 / 1 point

(One or more answers are possible. Partial credit will be awarded)

- ☒ Open a file.

✔ **Correct**

Yes, you can open a new file from your computer from here - or even open recently used files from a list. Another quick and easy way to do this is to use the keyboard shortcut for opening a file: CTRL/CMD+O while you are in the main window.

- ☐ Set up Excel options.

- ☒ Create a blank workbook.

✔ **Correct**

Yes, you can create a blank workbook from here or choose from a broad range of templates. A quick and easy way to create a blank workbook is to use the keyboard shortcut: CTRL/CMD+N while you are in the main window.

- ☒ Close a file.

✔ **Correct**

Yes, you can close your files from here. Another quick and easy way to do this is to use the keyboard shortcut for closing a file: CTRL/CMD+W while you are in the main window.

5. The tools on the far right of the status bar (at the bottom of the screen) allow you to

1 / 1 point

(One or more answers are possible. Partial credit will be awarded).

- ☒ Use the zoom slider.

✔ **Correct**

Yes, absolutely. The zoom slider is great because you can easily adjust the view of your spreadsheet to your needs.

- ☒ Toggle between different **View Options**.

✔ **Correct**

Yes, well done. We will learn more about View Options in the next Practice Video.

- ☒ Set a specific zoom percentage.

✔ **Correct**

Yes - have you had a play with this tool? You either choose a particular percentage or zoom in on your selection. Super useful!

- ☐ Access the **Backstage View**.
